The crowd was composed of laboring men and citizens. During the demonstration someone fired a shot, but no one was injured.

GEORGIA COMPANY AWAITING PACKER

This Should Arrive Today From Houston, Texas, When Immediate Test of Well Will Be Made.

There is nothing new to report from the Georgia Company's well in 4-7-5. All operations have practically been suspended since the 15th, awaiting the arrival of a packer, which necessary implement had to be manufactured in Houston, Texas. Officials of the company state the test will be made just as soon as the packer arrives and the casing can be set. They are confident of a good producing well, in fact Capt. Bruce says he believes the well will far exceed their earlier expectations.

The packer was expected to arrive in New Orleans Wednesday night and a member of the company went over to expedite getting it transferred to the L. & N. However, it did not arrive Wednesday, but is confidently expected to reach here today.

The Seacoast Oil Co. has been drilling all week in a heavy gumbo and shell formation. They were down to 1558 feet Thursday afternoon. Mr. Kenny, the new formation man, arrived Sunday and went on the job Monday morning. He, together with Messrs. Burkett and Bryant, the drillers, are watching every foot of the well closely, and it is a cinch that nothing will be passed up and no oil showing overlooked. They are now resorting to what is known in drilling parlance as "rat-holing," which means drilling first a small hole to investigate formation and then following with reaming out to standard size.

The drillers, as well as a number of prominent oil men who have been watching the operations, state that the formation is indicative of oil or gas in large quantities and the log of the well tallies perfectly with the formation in the big oil producing fields of the coastal region.

COLBY SIGNS SUFFRAGE AMENDMENT ORDER

Proclamation Makes Equal Vote To Women Part of Constitution of United States.

Washington, Aug. 26.—Without pomp or ceremony, Secretary Colby today signed the proclamation declaring the woman suffrage amendment "to all intents and purposes a part of the constitution of the United States."

The secretary's signature was affixed to the proclamation at his home, at 8 o'clock this morning, a few hours after he had received from Governor Roberts of Tennessee the certificate that final favorable action on the amendment had been taken by the legislature of that state, completing the required thirty-six. The quiet manner in which Mr. Colby acted was a disappointment to suffrage workers, who had hoped to make a ceremony of his act, but they contented themselves with their own jubilation ceremonies, including a mass meeting here tonight. They united in statements that with the secretary's action
